

1st May 2014

Dear Mr Harrison,

Thank you for your enquiry about professional planning support services for Wilmcote Parish Council in respect of Neighbourhood Planning. As discussed I can provide a professional service at an agreed day rate of £500. There is no VAT to charge and I anticipate expenses being minimal given that we are local.

I indicated that I have been involved in providing support to a number of Parish Councils and I have attached some recent examples of work I have done for Councils in Warwickshire and also a case in Hampshire. I act for a number of Councils in Leicestershire and Oxfordshire. In the past I have also been involved with PCs in Derbyshire. I would be grateful if you could treat these as confidential.

I do not act for large developers but I do act for small companies and individuals principally in rural environments. My practice is based in Harbury and is a general planning practice, with experience in the development of Neighbourhood Plans. In recent years I have been based in North Oxfordshire, where I used to run a larger practice which specialised in infrastructure work. If there are any further questions you or your colleagues would like to ask please feel free to call me on either 01926 613615 or 07970 547156.

Kind Regards

David Holmes MA (Cantab) MRTPI
