

Wilmcote Parish Council
Neighbourhood Plan
Village Open Day 1st February 2015

Minutes

Following the circulation of the questionnaire to all residents an open day was held to allow residents to drop in and raise any queries on the questionnaire. A number of residents came as follows:

1. Marsh Road – discussed the meaning of 'in-fill' plots and where these may be in Wilmcote. Particularly concerned as to whether Ann Ray's possible development would be classed as infill. To the best of our knowledge, we did not think it would.

2. Woodcote Park – resident did not feel he wanted to comment "in view of his advancing years" discussed whether completing the questionnaire would be any point. Pointed out that his views were of value and encouraged him to complete the questionnaire as this would help plan the future development in the Parish.

3. Aston Cantlow Road – some questions around 'in-fill' plots and where development may take place. . Possibly felt that maybe larger developments would be preferable to a lot of untidy infill.

4. Swanfold – some concerns expressed about the whole process and the lack of clear guidance from the SDC Core Strategy. Did not accept that we needed to accommodate any new development. They were asked to include all their concerns in the questionnaire on a separate sheet if necessary.

5. Billesey Road - General enquiries as to what we actually had in mind. I think she felt we had it all mapped out.
